The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 14, 15, 17, 20-31 and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by Guzauskas '779.

Guzauskas discloses methods of preparing molding compositions suitable for automotive and dental applications. These methods include mixing solid acrylic resins with liquid monomers, oligomers or polymers and long fiber reinforcement followed by aging. The acrylic resins taught as suitable include block copolymers as claimed instantly and thus are seen as meeting applicants' limitation to "thermoplastic elastomer thickener".

Therefore the reference anticipates the rejected claims.

Claims 5-13, 16, 18, 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 32-35 and 37-45 are allowed.
